

STATEMENT OF WORK
Open Channel (582)
Wyoming

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design Surveys
 - a. Profile alignment and cross-sections of existing channel
 - b. Location and extent of vegetation and debris
 - c. Soils classification and investigation
 - d. Detailed topography at structure locations
 - e. Structure location, elevations and dimensions
2. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Impacts on adjacent properties and structures.
 - d. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06).
 - e. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. Hydrology/Hydraulics and Appurtenance Design
 - ii. Log of soils investigation lab tests and sediment yields
 - iii. Channel Stability
 - iv. Structure design
 - v. Vegetation and Erosion Control
 - vi. Quantity computation
3. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
 - a. Plan of open channel showing areas to be fence, revegetated, cleared and location of travel ways.
 - b. Profile and cross-section of channel
 - c. Detailed plan and section views of all structures
 - d. Location of waste disposal area
 - e. Table of quantities
 - f. Location map
4. Design Report and Inspection Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11 and Part 512, Subpart D Quality Assurance Activities, 512.30 through 512.32).
5. Operation and Maintenance Plan
6. Certifications that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03(b) (2)).
7. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre Installation conference with client and contractor.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
 - a. Centerline and slope stakes with reference stakes for channel
 - b. Alignment and reference stakes for structures
 - c. Location stakes or flags for fence location and areas to be cleared
 - d. Travel way layout stakes as needed
4. Installation inspection (according to inspection plan as appropriate).
 - a. Actual materials used.
 - b. Inspection records
5. Facilitate and implement required design modifications with client and original designer.

**STATEMENT OF WORK
Open Channel (582)
Wyoming**

6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meets design and permit requirements.

CHECK OUT

Deliverables

1. As-Built documentation.
 - a. Extent of practice units applied
 - b. Drawings
 - c. Profile of channel (100' maximum interval).
 - d. Cross-sections of channel (300' maximum interval).
 - e. Dimensions elevations and construction material for structures.
 - f. Adequacy of clearing, revegetation and disposal of waste material.
 - g. Travel way and fence conformance with plans and specifications.
 - h. Material test results.
 - i. Final quantities
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Subpart A, 505.03(c) (1)).
3. Progress reporting.
